

100%
funded by
generosity

of providers & families
in our community

We want all children to have access to high-quality summer experiences.

Our turn-key financial aid program allows both parents and activity providers an easy way to bridge the economic gap for kids enrichment camps and classes.

Families can apply for a need-based financial aid scholarship for 1,000+ camps and classes with just one application at ActivityHero.com

ActivityHero handles all of the eligibility documentation, family communication, and awards financial aid on a weekly basis. Participating programs determine how many scholarships to offer for specific sessions and the lowest price available.

However, reduced pricing is not a requirement for a camp to participate in this program. When the scholarship cost is more than the family can afford to pay, we bridge the gap with ActivityHero's scholarship fund.

"I am absolutely grateful for the Summer Camp Scholarship! I want my son to try out all these different fun Summer camps but it's so expensive, especially for families of two. I wish all Summer Camps offered scholarships as easily and hassle-free as this one."
